### Description of Change

3D PLUS is adding an additional marking information on DDR3 4Gb product family.

### Reason for Change

An additional marking information has been added on the DDR3 4Gb industrial module: the manufacturing lot number. This additional marking (which is for internal use) has been added to ensure better product tracking between the manufacturing and test operations.

### Impact of the Change

There will be no change to fit, form, function or reliability, only the marking is being changed
